Welcome to HealthEquity

Redeem rewards. Here's how.

Congratulations! As an Elevate or Elevate Plus member who has completed wellness activities, you've earned financial rewards you can use for eligible medical expenses.¹ Did you know you can earn up to \$500 per year per subscriber and covered spouse (up to \$1,000)? Watch the mail for your Wellness Pays rewards card, which should arrive within the next 15 business days. Here's what you need to know:

Your Wellness Pays rewards account.

Subscribers and covered spouses who have completed their online health assessment can register their Wellness Pays rewards account with HealthEquity.

Register for an account. Register at geha.com/RedeemRewards to get 24/7 access to your account and opt-in to important email alerts and updates. You'll also need an account to use the mobile app and take advantage of features like **"Submit Receipt or Claim"** or rewards card usage requests.²

Know what expenses are eligible.

Visit geha.com/WellnessPays for a list of eligible medical expenses. Generally, these expenses include products and services that are medically necessary to treat a specific condition.

Use rewards for all eligible members.

Typically you, your spouse and your tax dependents are eligible.

Know where to shop. You can use your rewards at pharmacies, health care providers or some general merchandise stores. To find a list of approved stores, visit sig-is.org. If the merchant is not approved, your rewards card will likely be declined.

Keep your receipts. Save receipts that describe exactly how you used your rewards. Make sure the amount and service date (not just the payment date) are included.

Verify transactions when needed. If a transaction is not automatically verified at checkout, you will be notified by email or the next time you log in to your account. If you don't verify an outstanding transaction, you may not be able to use your card in the future.

¹See IRS Publications 502 and 969 for more information regarding eligible medical expenses, health savings accounts, and health reimbursement arrangements. It is the members' responsibility to ensure eligibility requirements as well as if they are eligible for the expenses submitted.

²Accounts must be activated via the HealthEquity website in order to use the mobile app.

Pay with your rewards card

Use your rewards card to pay at pharmacies and health care providers for eligible goods, services and prescriptions. Your rewards card also works at stores that have an industry standard (IIAS) checkout system that can automatically verify if an item is a eligible medical expense.

- ▶ When you swipe your rewards card at checkout, choose CREDIT even though your rewards card isn't a credit card.
- ▶ You can pay for goods and services on the same day you receive them. When paying for health care services, be sure to present your GEHA member ID first so the merchant bills your correct copay or coinsurance.
- ▶ Save your physical or digital copies of receipts for tax purposes. Even when your rewards card is approved, a detailed receipt may still be requested for verification.
- ▶ If you lose your rewards card, please call HealthEquity immediately at 1-844-768-5644 to order a replacement. You will be responsible for any charges made before reporting the lost rewards card.
